Prof. Choltacha Harnirattisai からのメッセージ

On behalf of the organizing committee, I extend a very warm invitation to all scientists and clinicians to attend the 6th International Congress on Adhesive Dentistry (IAD) to be held on January 31 – February 1, 2015 in Bangkok, Thailand.

Adhesive Dentistry started from the introduction of acid etching in 1955. Since then adhesives have been successfully improved through hundreds of research and academic symposia. The past IAD meetings have also made a great contribution to the advancement of adhesive dentistry. It is our pleasure to organize the 6th IAD meeting for celebrating the 60th anniversary of Adhesive Dentistry which will be in 2015. Hopefully, our meeting will also provide a platform to exchange new knowledge and technology on adhesive dentistry.

You can also take this opportunity to enjoy the beautiful landscape, vibrant culture, delicious Thai cuisine and warm friendship of Thai people.

Let's join the 60th anniversary of Adhesive Dentistry at the 6th IAD in Bangkok.
