

# Instruction for Authors

(Edited 2021-8-15)

1. Papers submitted to Adhesive Dentistry should be of interest to researchers and practitioners in the field of adhesion in dentistry. Manuscripts in the following categories are acceptable: original, review, case report and technical report papers.
  - Original papers: Full length papers consisting of complete and detailed descriptions of a research problem, the experimental approach, the findings and appropriate discussion.
  - Review papers: Intending authors should communicate with the editorial board beforehand by e-mail.
  - Case report/Technical report: Case reports should have importance and significance to the practitioner; repetition of well-known and extensively published conditions or methods will not be accepted. The article should emphasize the new information provided and the relevance to general practitioners. Sufficient follow-up period is required, and high-quality images should be included.
2. All the authors must be members of the Japan Society for Adhesive Dentistry.
3. Manuscripts should be written in English. They should not be under consideration for publication in any other Journal and must not have been previously published.
4. Manuscripts should conform to Adhesive Dentistry style and have English language errors corrected before submission. The editorial board may return the manuscript without refereeing due to poor style and language usage. In the case of authors who are not native speakers of English, English grammar and syntax in the manuscripts should be checked and corrected by a native English-speaking person before submission.
5. Experimentation involving human subjects should be carried out in full accordance with ethical principles, including the World Medical Association Declaration of Helsinki. All studies using human subjects should include an explicit statement in the Material and Methods section identifying the ethics committee approval for each study. When experimental animals are used, the manuscript must state that the care taken to minimize pain and discomfort was in accordance with institutional guidelines.
6. All articles must include a statement of any (or no) conflict of interest. Refer to the Conflict of Interest Policy of the Japan Society for Adhesive Dentistry for details.
7. All manuscripts will be sent to reviewers. Authors will be asked to revise the manuscripts according to the reviewer's comments. Acceptance or rejection of the manuscripts will be decided by the editorial board of Adhesive Dentistry.
8. Copyright of papers accepted for publication will be the property of the Japan Society for Adhesive Dentistry. Direct quotations, tables and illustrations in the published paper should be accompanied by written permission for their use from the copyright owners.
9. The manuscripts should be typed, double-spaced, on white paper of A4 size with a word processor. Top, bottom and side margins should be about 25 mm. Number all pages consecutively at the middle of the bottom margin.
10. The title page should include the following items:

- Category of the manuscript
- Title (the first word of the title sentence should start with a capital letter with all others in lower case)
- Full names of the authors (Tomotaro NIHEI<sup>1</sup> and Yoichiro NARA<sup>2</sup>)
- Institutions and addresses (including the all institutions' addresses:  
<sup>1</sup>Division of Clinical Biomaterials, Department of Oral Science, Graduate School of Dentistry, Kanagawa Dental University, 82 Inaoka-cho, Yokosuka, Kanagawa 236-8580, Japan  
<sup>2</sup>Department of Adhesive Dentistry, School of Life Dentistry at Tokyo, The Nippon Dental University, 1-9-20 Fujimi, Chiyoda-ku, Tokyo 102-8159, Japan)
- Key words (3-5 words, and each keyword should start with a capital letter)
- Corresponding author (full name; e-mail address: phone number, fax number)

11. Manuscripts should include the following items:

- ABSTRACT in English (200 words) and the corresponding Japanese abstract.
- INTRODUCTION
- MATERIALS AND METHODS
- RESULTS
- DISCUSSION
- CONCLUSION (if included)
- ACKNOWLEDGMENTS (if applicable)
- REFERENCES

12. Proprietary names of commercial products should be given in parentheses by their product names, company, city and country.

- a cutting instrument (Product name, Company, City, Country)
- a luting cement (Product name, Company, City, Country)

13. Do not use the space key before °C, °, or % in the text (2°C, 25%).

14. Do not use the space key before and after >, =, /, ±, or × in the text (t=18, 25×70).

15. Dash markers should be used according to the following three examples.

- Au-Ag alloy, all-ceramic inlay, 1-mm-deep, or p18-21 (Hyphen; Unicode: 002D)
- ranges of 2.5–3.6 mg weight or for 20–25 days (n-dash; Unicode: 2013)
- observed adjacent to the hybrid layer —but with differing appearances.  
 main text□—text—□main text (□ means space) (m-dash; Unicode: 2014)

16. Cited references in text should be in numerical order and used in superscript in line without any space (reference<sup>1</sup>), reference<sup>1,2</sup>) or reference<sup>2-6</sup>).).

17. References should follow the Vancouver style; follow the sample references of NLM ([http://www.nlm.nih.gov/bsd/uniform\\_requirements.html](http://www.nlm.nih.gov/bsd/uniform_requirements.html)). The references should be grouped in a section at the end of the text in numerical order as they appear in the text and should take the following form:

- *For journals*

Authors' surname together with their initials (List the first six authors, followed by et al.), full title of the article, the abbreviated name of the journal (as shown in Index Medicus), year, volume, inclusive page numbers.

1) Imazato S, Horikawa D, Takeda K, Kiba W, Izutani N, Yoshikawa R, et al.

Proliferation and differentiation potential of pluripotent mesenchymal precursor C2C12 cells on resin-based restorative materials. *Dent Mater J* 2010; 29: 341-346.

● *For books*

Authors' surname together with their initials, title of the book, city of publication, publisher, year of publication, inclusive page numbers.

1) Anusavice KJ. In: Anusavice KJ, ed. *Phillips' Science of Dental Materials*. 11th ed. St. Louis: Saunders; 2003. p. 655-719.

● *For Proceedings*

1) Sato H, Ban S, Yamasaki Y. Effect of surface treatments on bonding strength of dental zirconia ceramics to resin cements. *Proceedings of the 9th Asian BioCeramics Symposium*; 2009 Dec 8-11; Nagoya, Japan. Sendai: Meirin-sha; 2009. p. 8-11.

18. Figures should be numbered according to their order in the text. Each figure should be drawn separately. Figure captions are to appear on a separate page at the end of the manuscript.
19. Tables should be numbered according to their order in the text. Each table should be typed on a separate sheet and should be understandable without referring to the text. Standard deviations of values should be indicated in parentheses.
20. As a unit system, the international system of units (SI), MKS-system and CGS-system are acceptable, whereas the PSI system is not permitted.
21. Variables and abbreviations of Latin words should be written in *italics* ( $p < 0.05$ , *et al.*, *i.e.*).
22. When proof-reading, the author must not insert or eliminate sentences for revision purposes; only the correction of errors is allowed.
23. The publishing charge is 13,750 yen per page excluding tax. The Japan Society for Adhesive Dentistry covers the payment for the first three pages of accepted manuscript. Extra charges for elements such as figures and tables preparation, or color printing of photographs will also be paid by the authors. If the authors do not pay the publishing charge, the article may be retracted.
24. Instructions for online submission
  - (1) Adhesive Dentistry now only accepts online submissions. All manuscripts should be sent to the Editor by e-mail to:  
adhesive-dent@jfl.co.jp
  - (2) The authors should send the following files: text, figures and tables in the specified formats.
    - Text: DOC or DOCX
    - Table: DOC, DOCX, XLS or XLSX
    - Figure: PDF, JPG, JPEG, BMP, TIF, TIFF, PPT or PPTX
    - Color information: DOC, DOCX or PDF
    - Submission form: This should be completed, printed, signed by all authors, scanned as a PDF file, and submitted.
  - (3) All files should be within 20 MB.
  - (4) The resolution of the photos and figures should be 1200 dpi if possible. Extra white space around the actual figure should be removed.
  - (5) Use the author's surname and type of document as the file name, for example adhesive-text, adhesive-fig3, adhesive-fig10, etc.
  - (6) All text and file names should be free from non-English fonts. Times or Times New Roman is adequate.
  - (7) Figure numbers and captions should be appeared on a separate page at the end of the text, not

be indicated inside of the figures.

- (8) The reproduction mode of the images can be selected from the three cases in (a)-(c).
- (a) If the figures will appear in gray-scale both in the printed version and in the electronic version of the journal, the illustrations should be produced in gray-scale.
  - (b) If figures will appear in gray-scale in the printed version and in color in the electronic version of the journal, the illustrations should be produced in color. There will be no charges to authors for color in the electronic version to the authors. Illustrations in gray-scale may be required together with your accepted article based on the decision by the Editor-in-Chief.
  - (c) If figures will appear in color both in the printed version and in the electronic version of the journal, the illustrations should be produced in color. There will be additional charges to the authors for color printing to the authors.

If you use the color images, please indicate your preference between (b) color in the electronic version only or (c) color both in the printed version and in the electronic version, along with your preference for gray-scale printing or color printing for each image in a separate file containing color information.

25. All questions and contact sent by e-mail to the editorial office should be titled as “Adhesive Dent-Inquiry”.
